Summary

MCA graduate with a strong foundation in Python and machine learning, having built NLP-based applications using TF-IDF, cosine similarity, RAG pipelines, and LLM integration. Experienced in developing AI-powered tools with Scikit-learn, PyTorch, and OpenAI Whisper, and deploying them via Streamlit. Combines backend development skills (Django, FastAPI, REST APIs) with practical AI experience to build intelligent, user-facing applications.

Skills

Languages: Python, JavaScript, SQL, HTML5, CSS3
Web Development: React.js, Django, Streamlit, Tailwind CSS, REST APIs
Databases: MySQL, PostgreSQL
AI / ML: Scikit-learn, PyTorch, NLP (TF-IDF, NER), RAG Pipelines, LLM Integration
Cloud & DevOps: Vercel, Docker, GitHub
BA & Documentation: BRD, FRD, SRS, Use Case Diagrams
Methodologies: Agile, Scrum, Waterfall
Tools: JIRA, Confluence, Power BI, Microsoft Word, Microsoft Excel, Microsoft Outlook
Other: WebSockets, JWT Authentication, FastAPI, Whisper (OpenAI), Pandas, NumPy

Work Experience

Software Development Intern Nov 2025 – Mar 2026
Reizend Private Limited Kerala, India
– Supported deployment and configuration of the Ask BH.AI conversational AI platform across development and staging environments, gaining exposure to cloud-adjacent deployment practices.
– Optimized SQL queries and refactored data pipelines, improving data retrieval performance and reporting accuracy.
– Documented technical findings and defect reports in structured formats, enabling clear communication across cross-functional teams.
– Collaborated with developers to validate fixes, test system behaviour, and ensure stable post-deployment operations.

Education

Master of Computer Applications (MCA) 2024 – 2026
Marian College Kuttikkanam, Kerala CGPA: 8.10 / 10.00
Bachelor of Commerce (B.Com) 2021 – 2024
St. Berchmans College (Autonomous), Changanassery CGPA: 7.01 / 10.00

Project Experience

Prescripto | Django, MySQL, REST APIs, HTML5, CSS3 | 🌐 [Live Demo](#) 🐙 [GitHub](#)
– Designed and deployed a full-stack web application with role-based access control.
– Built an analytics dashboard tracking 5 KPIs (appointment volume, cancellation rate, peak hours, user retention, doctor utilization).
– Optimized MySQL database schema with indexed queries for efficient data retrieval.
AI Career Companion | Python, NLP, Scikit-learn, Streamlit, PDF Parsing, Whisper | 🌐 [Live Demo](#) 🐙 [GitHub](#)
– Built an end-to-end AI-powered Python application using NLP techniques (TF-IDF, cosine similarity) to match candidate profiles against job requirements.
– Deployed a user-facing Streamlit interface, gaining experience in application hosting and environment configuration.

- Integrated OpenAI Whisper for speech-to-text processing, demonstrating practical exposure to AI and emerging technologies.

Social Media Platform | *React.js, Django, WebSockets, JWT, Tailwind CSS, MySQL* |  [Live Demo](#)  [GitHub](#)

- Developed a full-stack real-time application using React.js on the frontend and Django on the backend — covering both front-end technologies and server-side Python development.
- Implemented JWT-based authentication, WebSocket real-time communication, and deployed the application on Vercel.
- Applied JavaScript, Tailwind CSS, and React.js in a production-grade project, demonstrating web development proficiency across the full stack.

Certifications

Machine Learning with Python | IBM Cognitive Class | 2025

Prompt Engineering for Everyone | IBM Cognitive Class | 2025

Data Science Tools | IBM Cognitive Class | 2025
